About Aspire Europe

Aspire Europe is an organisation dedicated to delivering change through programme management. We see this role as critical and understand the challenges faced by BCM's as we have provided consultants to fill these roles in the past. This course provides a general overview of this critical role and the responsibilities that go with it.

We look at the tools and techniques that will be helpful day-to-day and identify areas where further development will help. In addition, we will explore the different levels of engagement with other skills that will be required to support the BCM during the change life cycle.
